As we all linger in the Covid world we must remember how important touch and connection are, some of the very reasons that this program was founded! Inspired by real-life hugs from a best friend who lives far away, we created a virtual hug each time we talk, that I also use at the end of my Pet Tales group, which I’ve been hosting for more than a decade now.

Give it a try:
Stretch your arms straight out in front of you, then wiggle your fingers to wake them up, wrap your arms around your torso and SQUEEZE so you feel a nice tight hug, and know that someone is thinking about you.”

Welcome to the Well Connected Community

Well Connected is a phone and online community of more than 3,500 members across 49 states, offering education, friendly conversation, and a variety of discussion and support groups to older adults, all from the comfort of home. Our community consists of participants, staff, facilitators, presenters, and other volunteers who care about each other, and who value being connected to engaging content, and to each other. Well Connected members can play a game, learn a language, write a poem, go on a virtual tour, meditate, share a gratitude, get support, and most importantly, connect and engage with others every day across the country. All groups are accessible by phone or on online. Well Connected is a Front Porch Community Engagement Program and is free of charge to all participants and available to adults over the age of 60.

Four Score and Plenty!

Who wants to live to be a hundred? The number of centenarians in the United States, though small, increased by almost 70% between 2010 and 2020, and this trend is expected to continue, as the first Baby Boomers turn 100 in 2046. At no point in human history has society been so diverse in terms of age, and we need to consider more than ever the meaning of growing older, and upend the notion of age segregation.

This session, we champion our oldest members, with 5% of our active participants over the age of 90, and our oldest participant at 102! What amazing changes they have seen since the roaring twenties! To what do they attribute their longevity? How do they feel about the future? If you’d like to talk about all of this, and more, join our new group, Living it Up at 90+ (you don’t have to be 90 to join the conversation!).

“Every morning I wake up and remember that yesterday is gone, tomorrow isn’t here yet, today is a gift because it’s the present!”  
— Jackie, 102

“I saw this on a hospital bulletin board in Berwyn, IL where I had a private duty case in the 1950’s. It has been a theme for my life. “Happiness is a passage, not a destination.” I also learned from a High School Biology teacher named Miss Trowbridge, “There is so much good in the worst of us, and so much bad in the best of us, that it hardly behooves any of us to talk about the rest of us.”
— Barbara, 94 Facilitator and Participant

“The best is yet to come,” said the poet Robert Browning. Keep on keeping on, participating, and staying well connected!”
— Rita, 94 Facilitator and Participant

“People don’t believe my mind can be good, you have to have to sense of humor, and get to know your own body at this age.”

Activists R Us!

**Wednesdays, 5/4 – 8/31**

Democracy needs three things to thrive: voting, the political act, and information. Your voice is heard during elections by casting your vote, otherwise your voice is heard by committing a political act. We will talk about political acts, when and why we’ve committed a political act, what leads up to our decision, what sources of information influenced our decision, how did we feel before, during, and after the act, did we get results or not? We will listen to each other, encourage each other, and learn from each other. Democracy is a numbers game - majority rules - add your voice to the total.

*Facilitated by Samantha Smith*

Climate Change: Education and Advocacy Action

As always, participants will be supported and encouraged to take their own actions, and share with each other about their actions.

New Tech Tools for Advanced Care Planning
5/24
When you can’t speak for yourself, who will? If you have no designated person to speak on your behalf, then speak for yourself! Written living wills or advance directives can sometimes be misinterpreted or unclear. There are new methods to make your wishes clear, such as a video advance directive for your medical care. MIDEO (My Informed Decision on VidEO) was created after research showed that patients were at risk of receiving inappropriate care even if they had an advance directive. At this time of COVID it’s important to have an effective advance directive. Visit MIDEOhealth.com, or download the MIDEO Directives App for more information.

We grieve deeply when they die.

Reframing Aging: Telling a More Complete Story about Aging
6/10
All of us are aging, and all of us are doing it our own way. Unfortunately, the story that most of the public believes about aging is a simplistic either/or – either we are frail and dependent, OR we are playing golf and cruising. These misperceptions lead to ageist attitudes and behaviors. Isn’t it time to tell a more complete story that recognizes the complex experience of aging? One thing that holds us back is how we talk about aging. Words matter. And some of the ways we communicate work against our best interests. Join us as we learn the inside scoop on how the public feels about aging, and how we can change our communication to tell our story more effectively. The Reframing Aging Initiative is a long-term social change effort to improve our understanding of what aging means and the many ways that older people contribute to our society. We will counter ageism and ensure supportive policies and programs for us all as we move through the life course.

80 Over 80 celebrates 80 people 80 years and older in San Francisco by profiling them and hearing their stories because even the ordinary is extraordinary after 80. During this uncertain time, it’s as important as ever to hear the voices of older people, who are particularly affected by this pandemic and the social isolation it imposes. Stories can bring us together, even if we are physically isolated.
